Our Objectives

We, as a team and software company, want to assure to all our clients a secure and efficient software so you can work with the best technology we can provide to you.

O1

Secure Software

O2

Efficient

O3

Reliable

O4

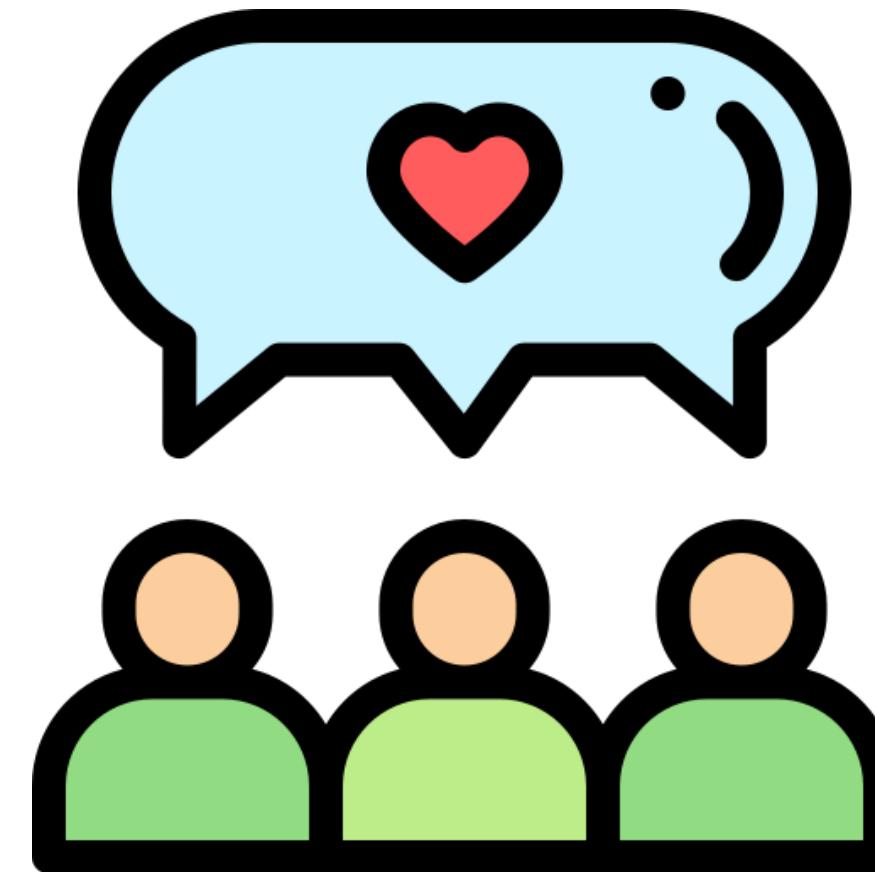

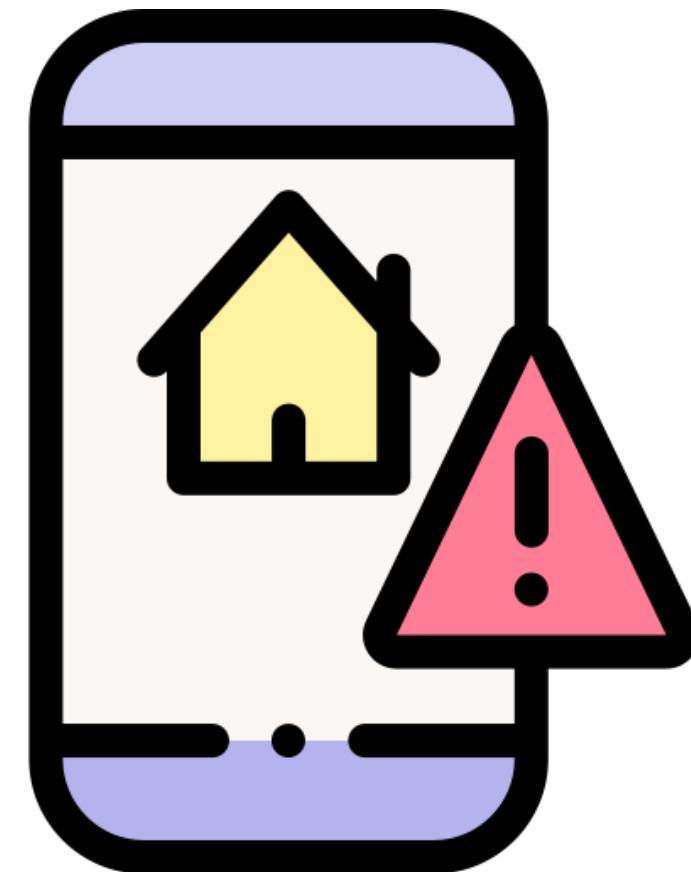

Friendly

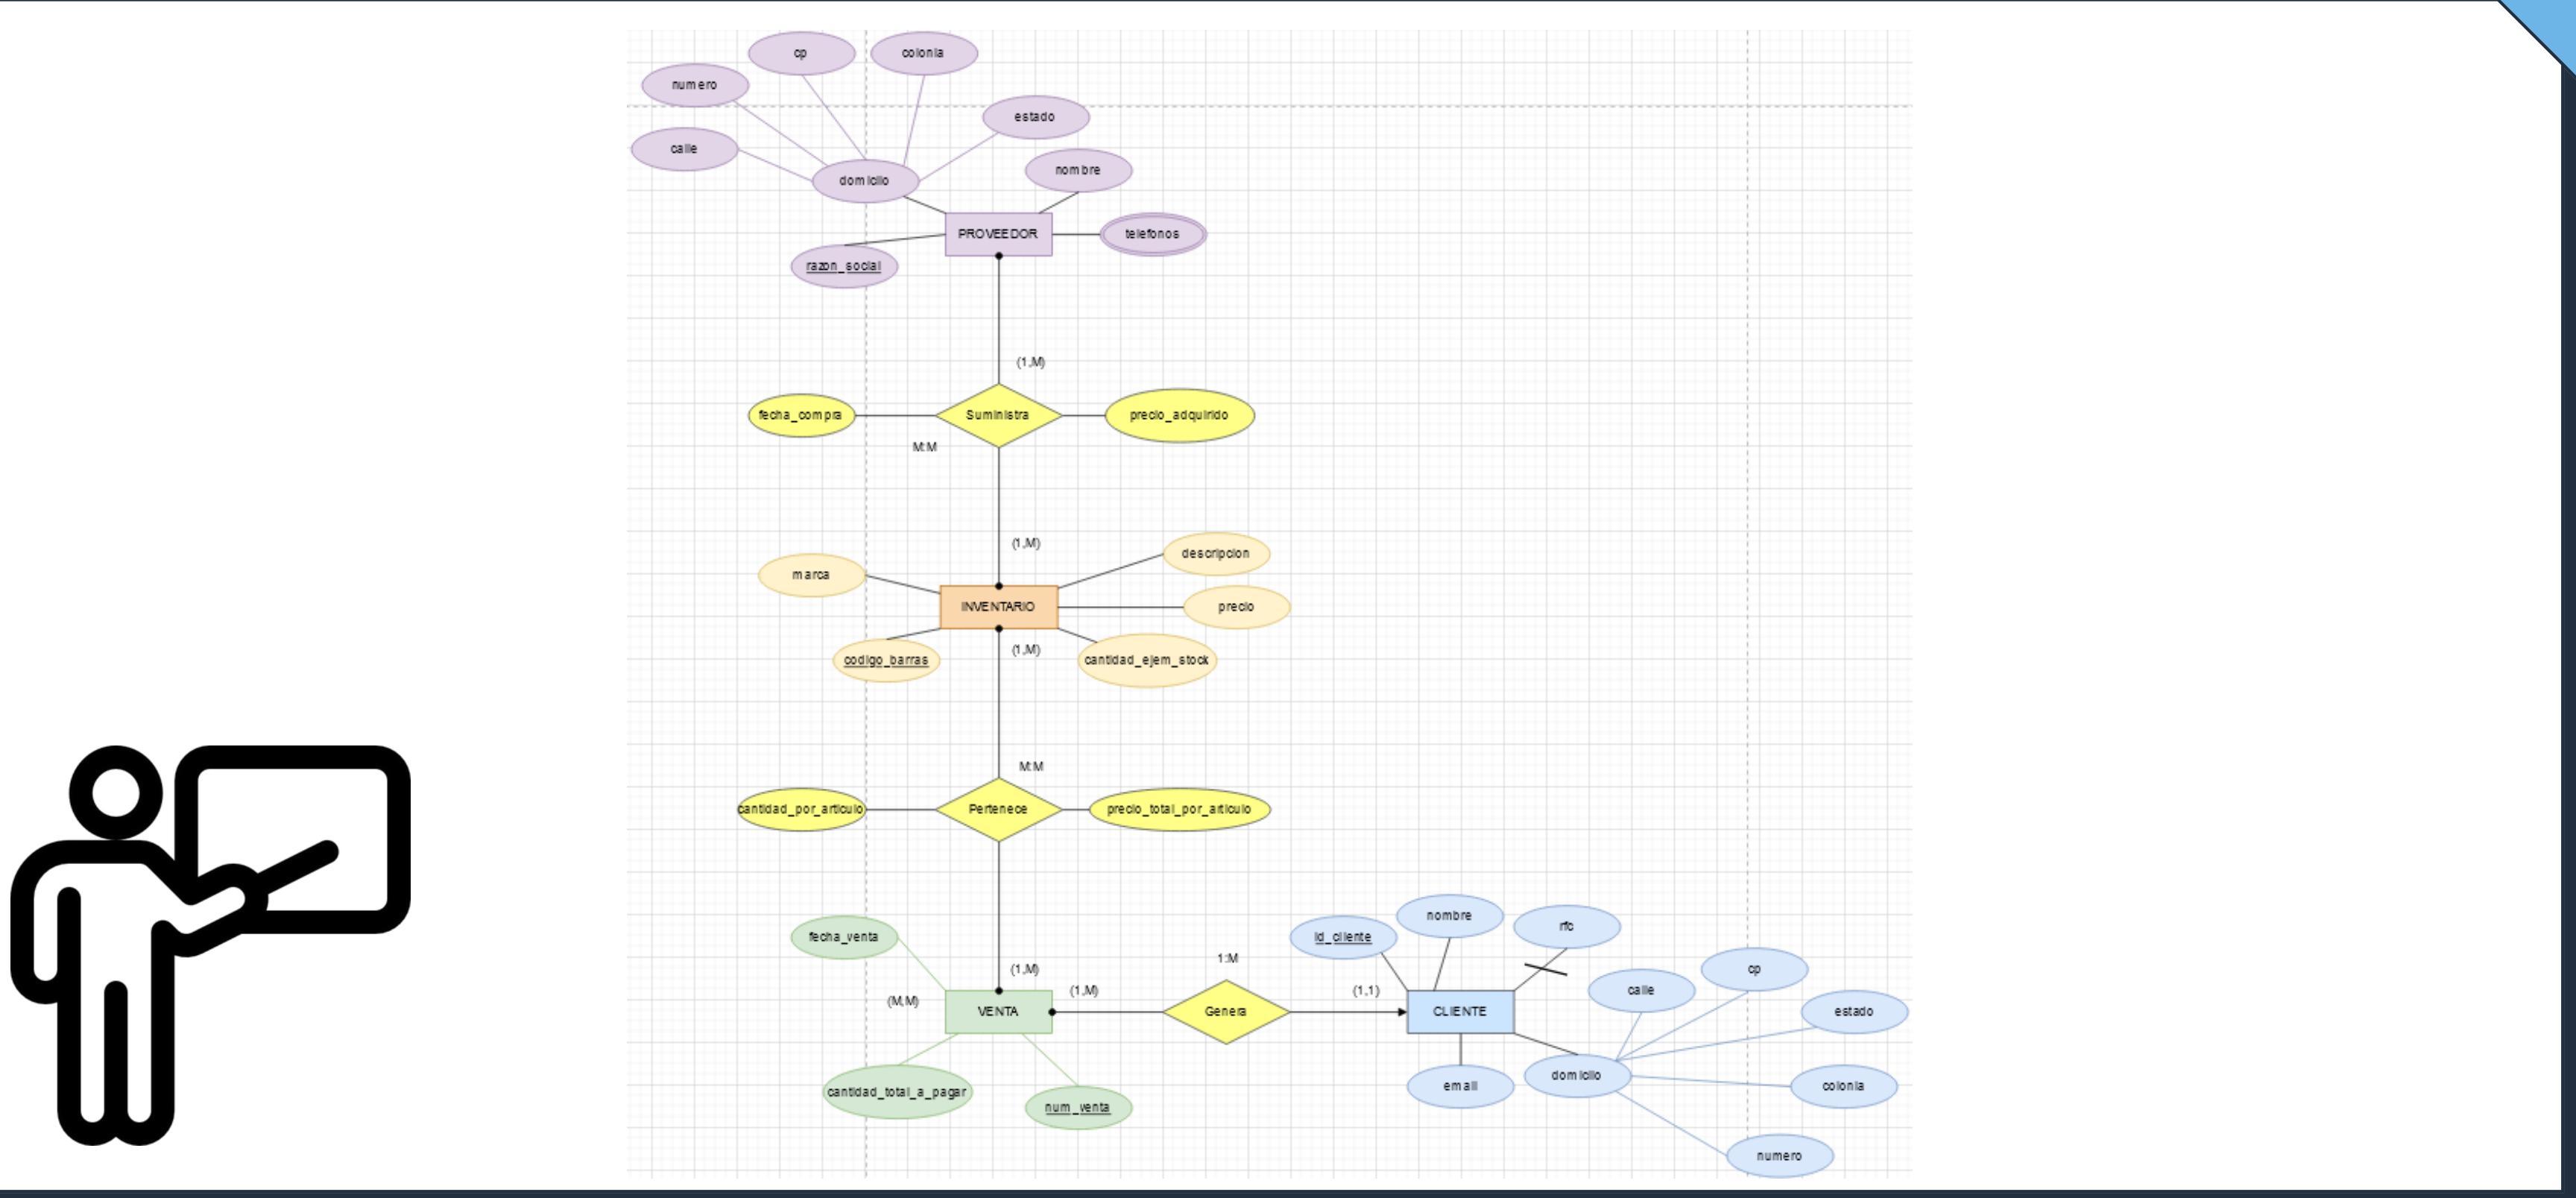

- Newest Database system for a Stationery Store
- All the products that one of this kind of stores can provide
- All the information they need about suppliers, products and clients they have

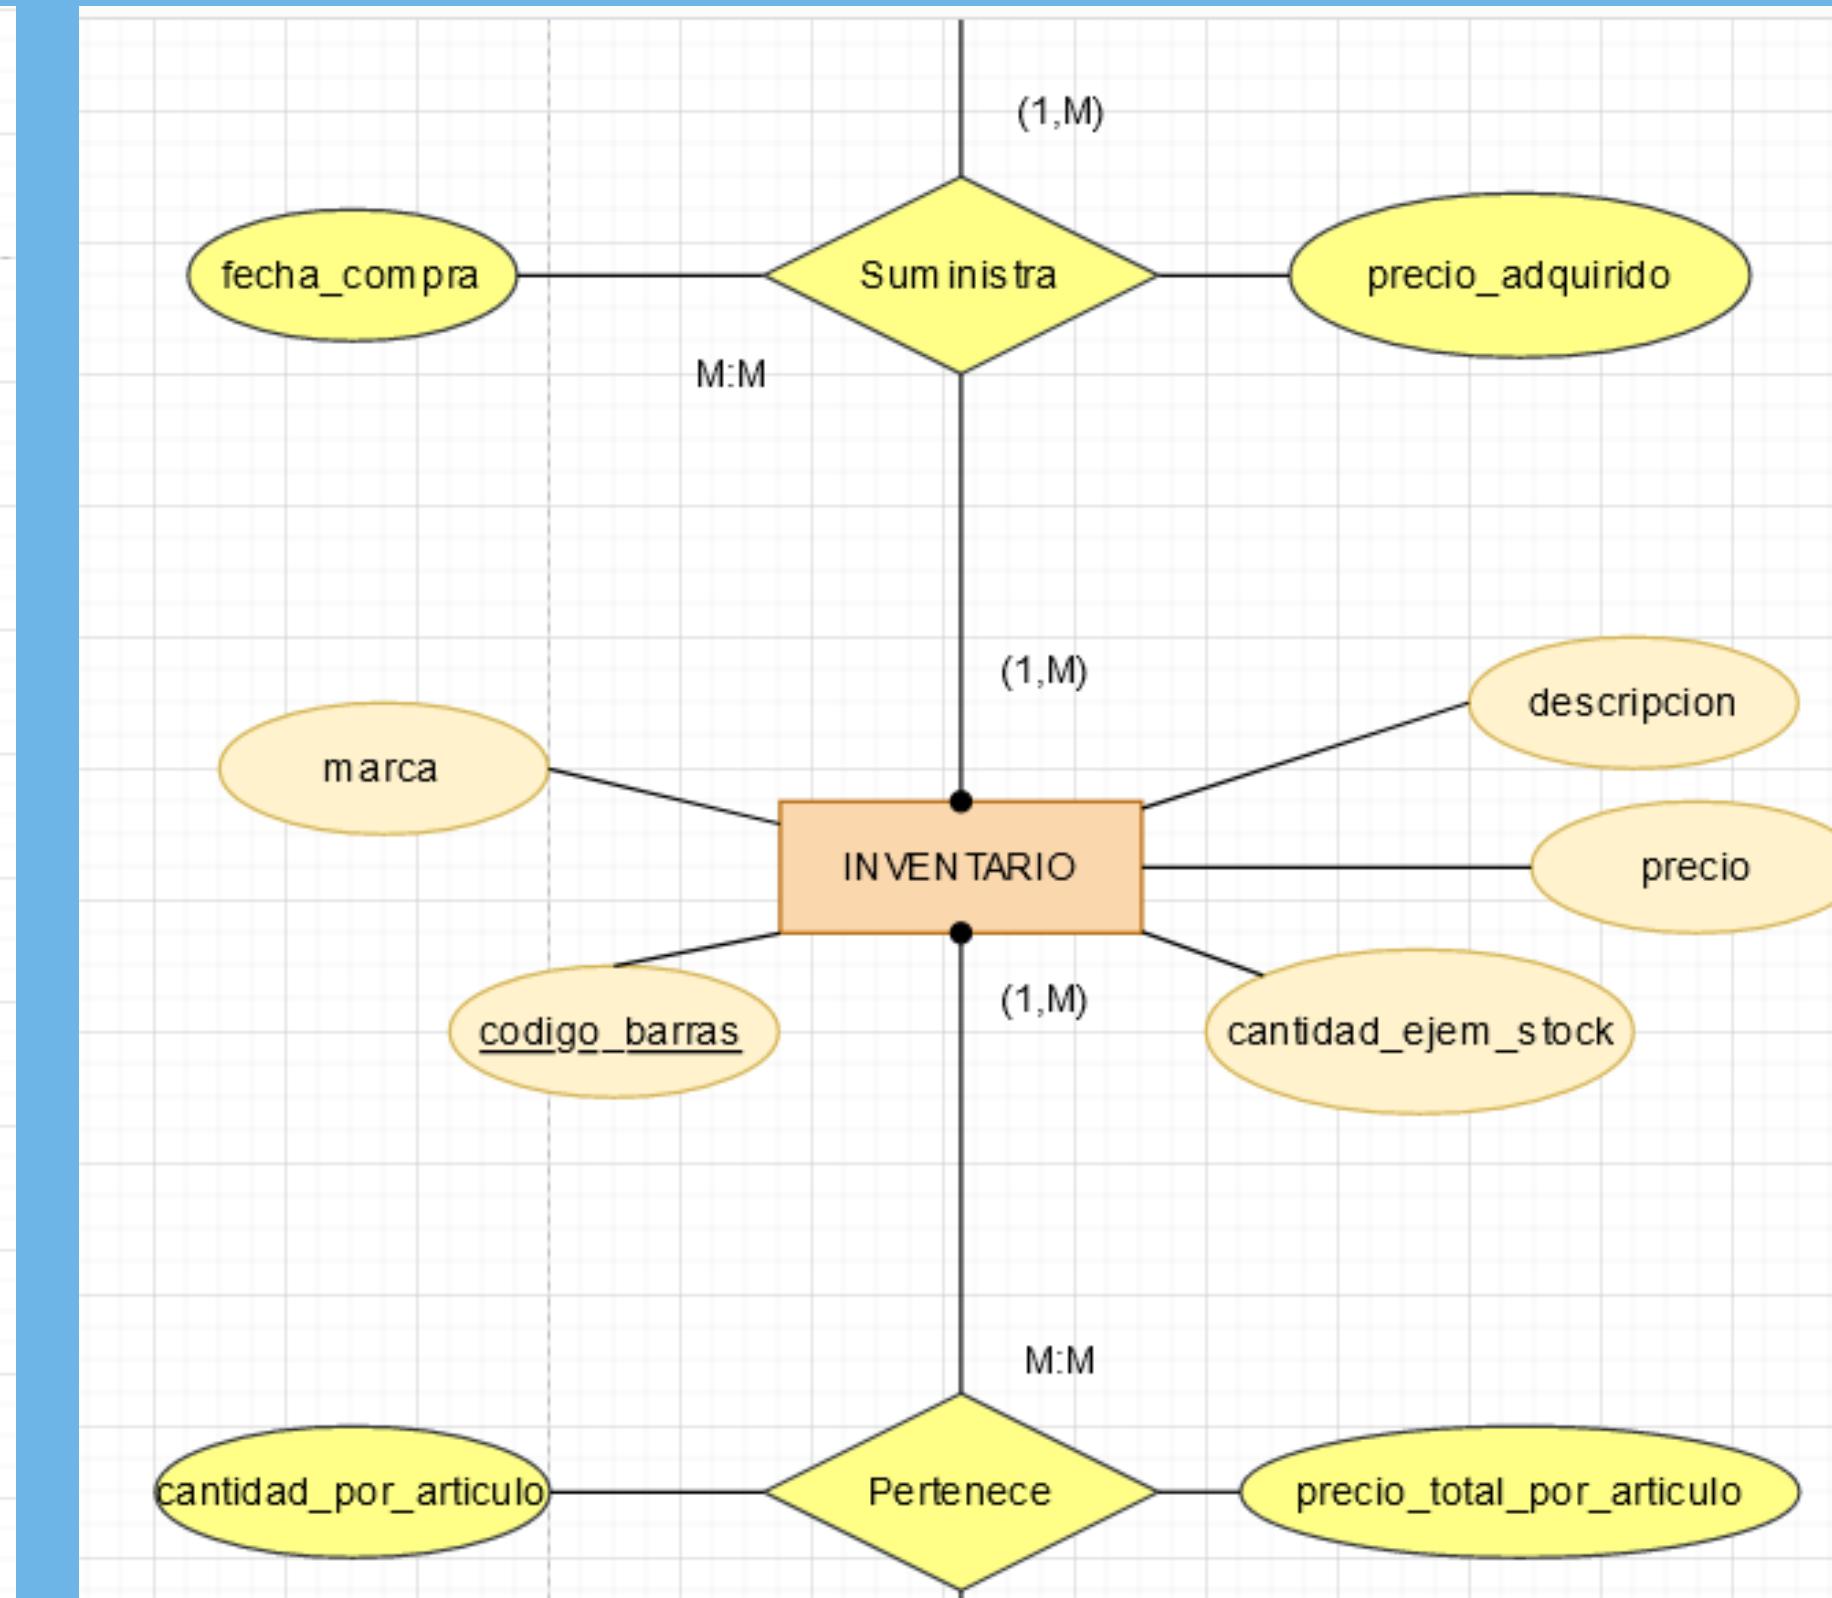

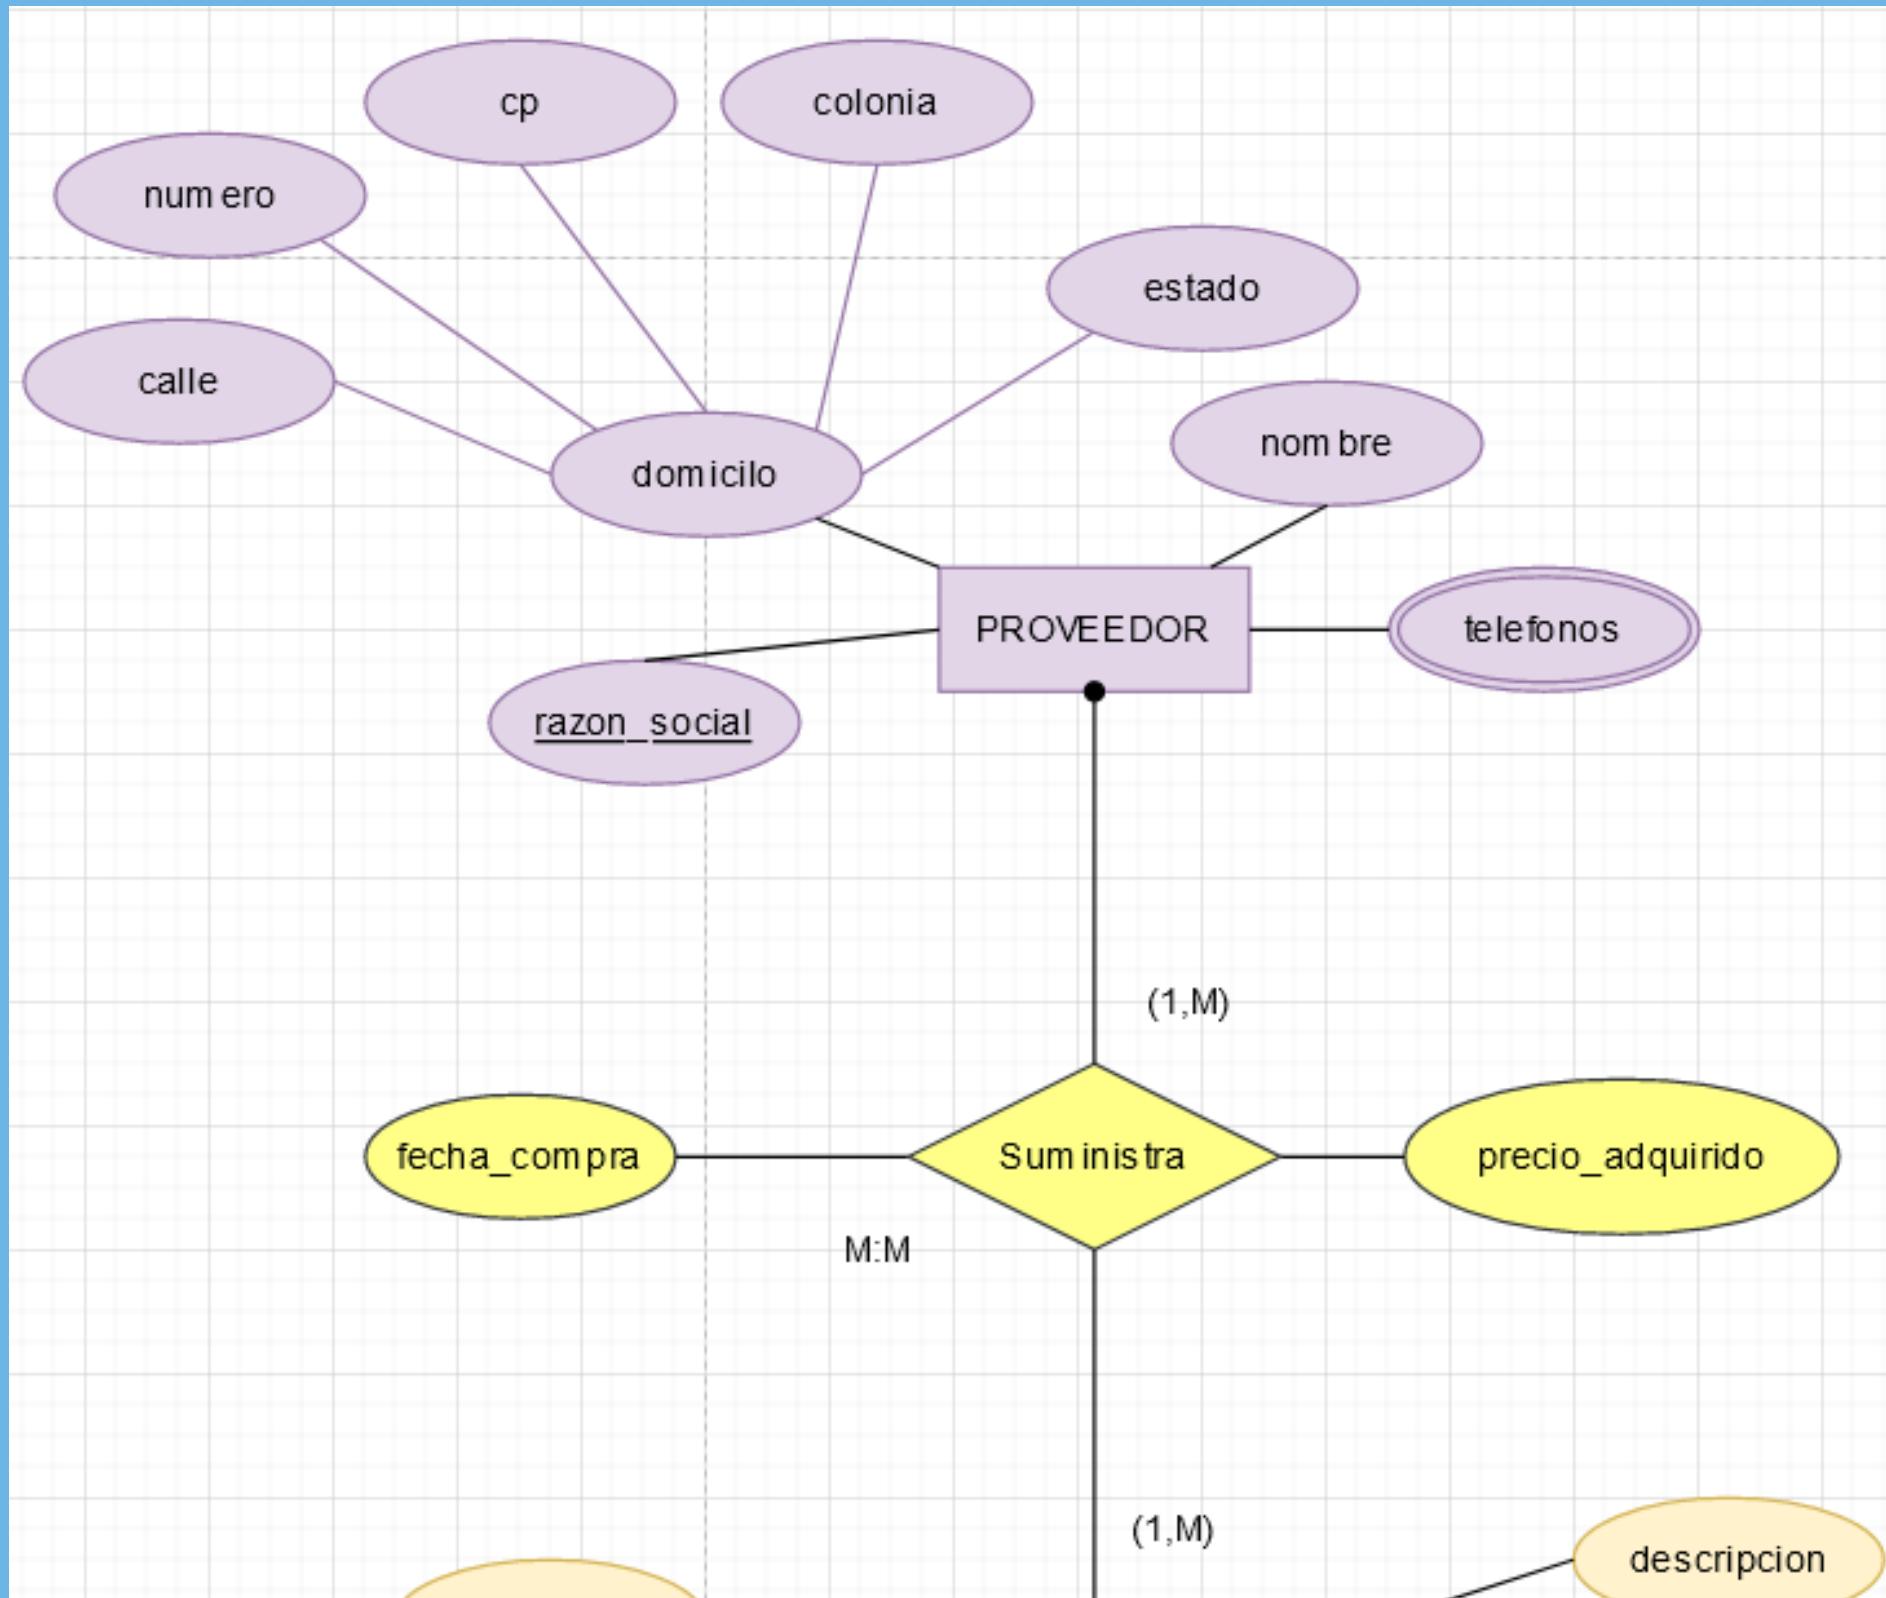

- Decentralized and independent system
- Technology risks
- We make the database as friendly as possible
